Innisfree rose sheet mask review

Hi guys, I'm back with yet another review. I really hope you all enjoy reading my reviews and helping you. I heard a lot of different things about Innisfree masks and decided to try again. I've had a good time with him in the past, but since people are raging about it, I've been thinking about giving him a second chance. Luckily, it was better for me this time. So if you want to know my experience with that Rose mask, keep reading. Price: INR 100 for 20ml My experience with Innisfree Rose It's a real squeeze mask: I have mixed feelings about this product. I tried the mask before which it didn't work well for me because it was too greasy for my oily skin. I read that these masks are not really great for oily skin. It also caused a huge pimple on the chin the last time I used it. But this time it was different. Let's talk about the good, the bad and the technique I used that saved me from a huge zit! I love the smell of this mask and how hydrating it is. It feels comfortable when applied to the skin and gives a cooling effect. It also made my skin softer post an hour which is amazing, right? Other than that, it gave my oily skin a semi-matte look throughout the day (it didn't dry out the skin or make it greasy, but I used the technique for this). The best part is that my skin looked so fresh and a little fair to post to use. These were the benefits I experienced after using the mask. yes, and I smelled like a garden of pink flowers. 😊 bad thing was that I got scared, because the last time I had a zit and once I took it off, the mask felt greasy. Read Rati Beauty Diet: The right way to lose weight I looked like someone had thrown oil on my face. 😊 In the directions indicated, it basically presses on the skin for its absorption. I barely did it for 20 seconds, and I washed my face off. If you have oily skin, don't dab the essence into your skin as you'll end up smelling like roses with pimples all over your face. As soon as possible, wash off the grease of the face. Once thoroughly washed with cold water, you will notice that your skin looks radiant. Until now, I have not experienced any side effects of this mask. I think the mask is pretty good. Let's go! Pros of Innisfree Rose It's Real Squeeze Mask: • Amazing fragrance • Makes skin softer • Makes skin radiant, fresh and little bright • Affordable • Doesn't dry out the skin • Easy to apply and remove • Hydrating In term of hydrating , that's definitely good. It moisturizes my skin pretty well. Btw, that doesn't make me break out. The only complaint is that it's not intense enough. Innisfree is a Korean brand that is very popular for its wide range of skin care products that actually give amazing results. I bought my first innisfree product almost three months ago and it has since become my favorite brand when it comes to skin care. So whenever I spot an Innisfree product these days, I try it out. So one of my recent shopping lines. I picked up a handful of leaf masks from Innisfree's It's Real Squeeze List Range Mask and today I'll be reviewing the Innisfree Rose's Real Squeeze List Mask. Basic Info About Innisfree Rose It's a Real Squeeze List Mask Innisfree its Real Squeeze Mask Rose is a leaf mask that is for people who want to moisturize their skin and also want their skin to become smooth and soft. What does the brand say? Innisfree's Real Squeeze Sheet Mask is a mask containing basic moisture squeezed out of fragrant roses to keep the skin smooth and radiant. Prices. 100 for one sheet mask. Warning about sensitive skin? No, but check the list of ingredients to make sure you're not allergic to anything. Natural / Organic / Vegan Yes How to use it The first step is to wash your face. You can use face washing, or you could just wash it with water. Use toner that does not match the texture of the skin. Then apply this mask to the face and leave it there for about 15 minutes. When finished, do not smooth out the excess serum. Instead, pat it gently all over your face so that the skin can absorb it. The mask comes in a smooth package. There's no way out. The mask is folded inside the packet. To remove it, you need to open the package, remove the mask, carefully open the folds, and then place it on the face. It has two holes for the eyes, one for the part of the nose and one for the lips. I loved this mask. The mask not only moisturizes my skin, but also leaves it smooth and supple. It thoroughly cleans the pores and a slight rose scent added to the freshness. I use this mask almost every time I experience a breakout on any part of my face. Not only does it cut pimples, but it also ensures that the marks slightly decrease. The effects of this mask do not last more than two days. Also, the serum is slightly on the thicker side. So it feels a little sticky if you don't massage the excess serum into the skin until it is absorbed. For long-term effect, I need to use this mask at least three times a week. And it's best if you apply it at night before you go to bed. Overall performance Innisfree Rose It's a real Squeeze List Mask It is a very effective sheet mask. Pros Reasonably prices. Moisturizes skin. nice mild rose fragrance Detection skin smooth and soft Travel-friendly Serum is slightly strong Efficiencies do not last more than two days Pays for the eyes and nose are not perfect. Yes, I would recommend this mask for everyone. This mask has no specific skin type and anyone can use it. And since the price is not high, it is the ideal solution for quick skin repair at the end of a long tiring day. I've already bought it, and I'll do it in the future. Glossy Polish Rating 4.5/5 Innisfree its real squeeze mask tea tree review innisfree kiwi it's real squeeze mask review innisfree special care hand mask review innisfree cucumber squeeze mask review innisfree special care foot mask review innisfree its real Mask Pomegranate Review Innisfree Rose It's a Real Squeeze List Mask 4 Originally published on www.glossypolish.com September 29, 2017. Made from 100% biodegradable eucalyptus fibers, innisfree's new My Real Squeeze Sheet Mask collection is their latest country-friendly innovation. The launch took place on Earth Day, April 15, as evidence of their sustainable life commitment. A new #GIVEASHEET has also been introduced where people are asked to share the environmental issues they care about. Personally, I think this is a very useful initiative to support. Earth is our only home, and we live in it, what wouldn't we do to protect our home? I personally am passionate about the issue of water pollution, especially since I am an avid seafood consumer. I am so irritable and mad when I see bodies of water filled with garbage or fat. The earth consists of 75% water. Just because we're not aquatic creatures doesn't mean destroying bodies of water won't affect us. How can people be so selfish and short-sighted? That's why I'm really glad that more companies like Innisfree are coming up with environmentally friendly ways to take care of our skin. This PR package 7 sheet mask was presented as a laptop, with a sheet mask on each page and a little detail about its functionality. They have to scroll in the slider above. The My Real Squeeze Mask collection comes in 3 different consistencies: water (light and fresh), essence (deeply hydrating) and cream (intensely nutritious). There are a total of 18 variants, of which new are: oatmeal, coconut, ginseng, tomato, broccoli The one that I decided to review today is a variant of rose. It claims to give brighter and smoother skin with pink floral juice as the main ingredient. It also contains centella asiatica and chamomile extracts for skin soothing, hyaluronic acid and camel extract for moisturizing purposes. All ingredients have undergone a cold-pressed extraction method to maximize their benefits. The entire line is free of phenoxyethanol, a type of preservative that can cause skin sensitivity to some people who have known allergies. \$2 to Mask sheets. | \$1.75 at Beautytap. \$20.90 for a set of 10 different masks at Yesstyle. \$23.83 for a complete set of 18 masks on Amazon. Water, Glycerin, dipropylene glycol, glycolophen glycol, Niacinamide, Rosa Centifolia Flower Juice, Butylene glycol, betaine, panthenol, Xanthan Gum, Centella Asiatica Extract, Paeonia Suffruticosa Root Extract, 1,2-Hexanediol, Chamomilla Recutita (Matricaria) Flower Extract, PEG-60 Hydrogenated Castor Oil, Glyceryl caprylate, Allantoin, Ethylhexylglycerin, Dipotassium Glycyrrhizate, Disodium EDTA, Fragrance, Pantolactone, Hyaluron sodium leaf extract Camellia Sinensis, citrus peel extract, Opuntia Coccinifera fruit extract, orchid extract, Camellia Japonica leaf extract Before masking My skin feels dehydrated today. There are also several medicinal pimples along my jaw and outer that look like brown spots. I've been cleaning, exfoliating, and skin-sauna. Find out how I normally prepare my skin for camouflage. Material I caught the beautiful smell of rose from the package. The smell reminded me of pink toner, very fresh and not pungent at all. The new biodegradable material felt soft and was much thinner than the previous It's Real Masks. This was not a comp with support. Essence was bright and alive, but it didn't drip from the leaf mask when I put it on. During camouflage Fit was great! It was the right size for my face with no excess on the sides. The holes were perfectly arranged with my features. My only little gripe was the size of the eye holes, I wish they were just a little taller. My eyes are medium-sized, and I still find them too small. Small cards on both sides of the forehead were designed for easy application and removal of the sheet mask. I personally find the nice ones to have, but not the must-have. The adhering was great! Fold lines remained down without air bubbles emerging throughout the cloaking session. I took off my mask after 30 minutes, it turned white and it went out. I would recommend not to leave it for more than 25 minutes. During masking coating in the remaining essence felt like I was smoothing out on a moisturizing serum. It was comfortable and moisturizing. The finish had a dewy appearance and was slightly sticky. My skin was very hydrated and hydrated. The skin also looked bright and with a smooth texture and smaller pores, which proved the claim to be true! Initially, the reduction in redness was mild, but eventually disappeared throughout the day. Moisturizing was optional, but I used thin gel just to seal all the goodness. Below is a side-by-side comparison of before and after images. I am very impressed with the new Innisfree masks! You can't say the same about the previous It's Real masks. I think this particular variant is suitable for dry to combined skin, oily skin may find the surface too disgusting and may require wiping with toner soaked cotton. I'm excited to try other variants! They are super affordable too! Check out more Innisfree reviews here. \$2 on Mask sheets. | \$1.75 at Beautytap. \$20.90 for a set of 10 different masks at Yesstyle. \$23.83 for a complete set of 18 masks on Amazon. Go be beautiful! Love, Elaine Elaine
